

Betsy's Best

Betsy Chutchian

With a casual comment that the quilts I enjoy making the most are those using a wide variety of my prints from multiple collections, Betsy's Best was born. I poured through nearly 800 charm and mini charm squares to narrow the scope of colors and variety of prints to about 100 options, then to 80 and lastly, to 40.

Capturing prints for color stories as well as variety of styles and time periods was a little daunting, a bigger task than I imagined. You'll find prints from early 1800s Eliza's Indigo through Goodnight Irene at 19th Century's end, and all in between, perfect for the two featured scrap quilts, Harriet's Thimbles and Betsy's Scrap Box.

Harriet's Thimbles first featured in the line by the same name uses two sizes of templates that I designed with Paper Pieces and are available on Moda's website. Antique thimble quilts are usually made from many pieces of fabric, collected over the years.

Betsy's Scrap Box is inspired by the largest antique quilt in my collection, a scrap fabric delight, with the ease of one repeated block.

I hope you enjoy creating projects with Betsy's Best as much as I enjoy creating each of my lines. I see LOTS of scrap quilts in the future, do you?

My best,
Betsy
