

Coastal Breeze

by Sherri & Chelsi

Summer vacations at the coast created magical times for our family. Crashing waves and cool breezes on sunny days, walks along the shore to search for seashells, ice cream always, evenings watching the tide roll in, hanging flowers and plants from balconies, and the crisp smell of salty air framed each day with hope and happiness.

Coastal Breeze recreates those treasured summer days. Beautiful coral, orchid, aqua, blue, fresh green, and soft grey create a palette of the stunning flowers, foliage, and architecture of some of our favorite summers. The Coastal Breeze whimsical florals and prints conjure memories of flower gardens and color-filled window boxes while all the prints reflect an ocean-inspired lifestyle. We're excited to share this lovely collection with you and see the beautiful projects and quilts you create with it!
