

FEELING festive

by Chrissy Lux

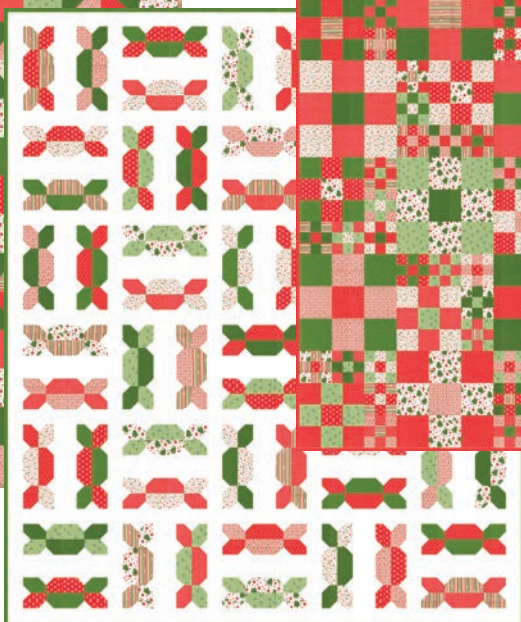

There's something about pulling out your holiday decorations and beginning the transformation of your space for the season. Maybe it's thinking about the hands that made the stocking as old as you as you place it on the mantle. Or reminiscing about the great times on a trip where you picked up a special ornament for your tree. Whether you're hanging baubles or bows, there's a festive feeling that emerges and invites us to enjoy this special time of year.

Feeling Festive celebrates the Christmas season with a classic red and green color scheme featuring playful trees, tiny snowflakes, and cookie sprinkles. Coordinating tonal prints easily join your festive projects that will be brought out and cherished for years to come. Grab a bundle and make some handmade holiday magic!
