Harvest Moon

Fig Tree & co

We all knew it would be sooner or later that I would reimagine our favorite retro Halloween collection, ALL HALLOWS EVE, into something new for us all to play with! This group is a bit more complex and more romantic, adding in a few more delicate florals and more gradations of these classic Retro Halloween colors. Like I always say, Halloween can be soft and classic and the colors can blend beautifully in and out of our fall quilts and fabric collections. This orange, grey and black collection blends beautifully with so many other Fig Tree lines as well as other MODA colors. I am so looking forward to sewing with these beauties along with you!
