

ombré dream

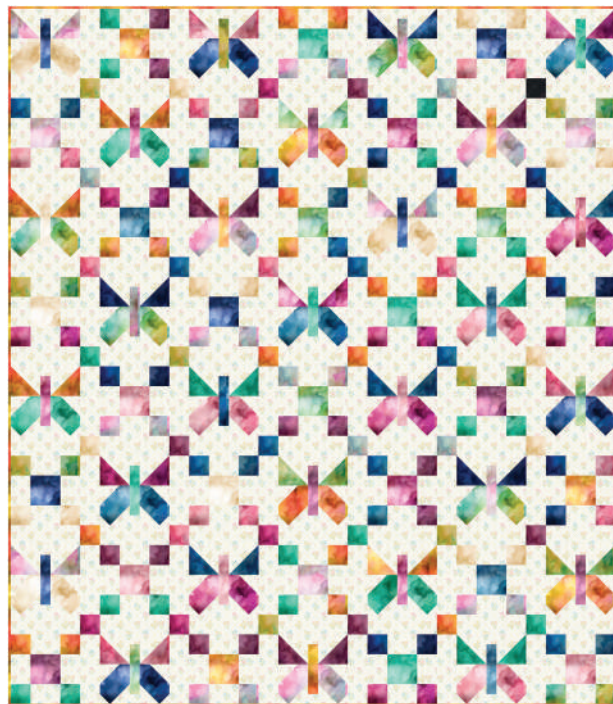

V and Co.

"Ombre Dream" is a celebration of everything we have loved about ombre fabric from the very beginning of V and Co. Since our very first collection, ombre has been part of our story, and part of the magic. I feel there has always been something exciting about the movement of color, the versatility, and the surprise that comes from creating with ombre fabric.

One of my favorite things about ombre is that two people can start with the exact same bolt of fabric and end up with two completely different quilts, simply based on how they choose to cut and place the colors. The fabric itself becomes part of the creative process, adding depth, movement, and unexpected beauty to every project.

VC 1300 Kaleidoscope 56" x 56"

VC 1303 Ombre Butterfly Effect 61" x 70"

"Ombre Dream" takes that idea and pushes it even further. Some of the fabrics in this collection have more than shades of a single-color fading from light to dark, it is a flowing blend of sometimes multiple colors shifting together in a mystical, dreamlike way. The colors move and fluctuate across the fabric almost like a painted sky or a dream you cannot quite explain. To truly experience this collection: Reach for the bolt, unroll a yard or two, open the fabric fully from the fold, and step back. That is when the magic happens. The full beauty of the color movement reveals itself in a way that feels both artistic and unexpected. The possibilities with "Ombre Dream" are endless. Every cut highlights something different. Every block can showcase a new section of color and movement. It is quilting with a sense of wonder, watching the colors appear, blend, and pop in surprising ways throughout your design.

DRs include two each of all 10 skus. HYs include all 10 skus.
JRs include four each of all 10 skus.

breezy

V and Co.

"Breezy" is a collection rooted in nostalgia, sunshine, and the simple beauty of summers gone by. Inspired by the vintage floral sheets I grew up with...the ones that danced on the clothesline in the warm breeze, this collection is filled with soft memories of uncomplicated days, open windows, and sun-warmed air.

The palette blends cheerful pinks, oranges and magentas, summery yellows, fresh greens and teals, fun blues, and touches of lavender, all wrapped in layers of blooming florals that feel both timeless and comforting. The background fabric is my favorite, a cross stitch of different flowers. Flowers have always held a special place in my heart, and every print in Breezy reflects that love with playful vintage-inspired designs and delicate details.

What makes this collection especially meaningful to me is that it brings everything full circle. One of the original vintage sheets that inspired my very first Moda collection returns once again in Breezy, like revisiting an old friend. It is a celebration of where my fabric journey began.
