

Sun-drenched

Sweetfire Road DESIGN Co.

Sunshine made of rich honey gold marries with the color of bright blue skies to bring you my Sun-drenched collection. This joyful line feels like fresh air on a bright summer morning ... And it features a bunch of beautiful blenders with dainty flowers, berries, and bees. My little dot print is back, too! And I'm so pleased to share that my beautiful bee print is available to you in both quilting cotton and durable but oh-so-soft cotton linen canvas.

Honeybee Haven and My Madeleine are my two new signature Sweetfire Road quilts, which my creative partners and I designed to evoke the timeless beauty that occurs with the classic pairing of blue and yellow.

Enjoy & Happy Quilting!
